

Have you dreamed of running your own steam locomotive or know someone who has? The NSRM 'Your *Hand is on the Throttle*' program may be just the ticket!

This is your opportunity to have your hand on the throttle and learn to operate a historic steam locomotive. The NSRM engineer program allows you to actually operate a steam locomotive under the supervision of qualified NSRM personnel. Prospective engineers receive hands-on training in the operation of the locomotive and then take the controls for an hour. The NSRM engineer program makes for a full and unique experience you won't get anywhere else. And remember, it also makes a great gift for that special someone who thought they've done everything!

## **What Each Student Gets**

- 'Your Hange isation to Mahuattle
- The NSRM Rulebook
- Hat and Gloves
- One hour of Class Time
- One Hour of Locomotive Operation
- 'Honorary NSRM Engineer' Certificate

## Requirements

- Must be 18 years or older
